

HYDRO QUEEN

Aqua Therapy System

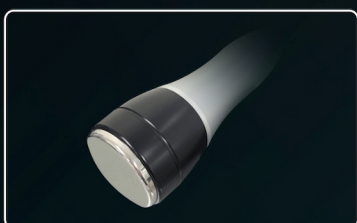

HYDRO QUEEN is an aqua therapy device meticulously crafted to enhance skin exfoliation by eliminating aged dead skin cells and excess sebum while simultaneously providing hydration. The unique HYDRO QUEEN tip features two suction holes and one serum discharge hole, incorporating a spiral design to ensure sufficient contact to skin in order to effectively soften dead skin cells. The vacuum function further amplifies the peeling and extrusion effects. For optimal results, HYDRO QUEEN's treatment efficacy can be enhanced when paired with specially curated solutions like LASER DOCTOR and other compatible options.

Diamond handpiece

Hydrofacial handpiece

Ultrasound handpiece

For international use only

Feature

Aqua therapy

Eliminates aged dead skin cells and excess sebum, and provides hydration at the same time.

Special tip design

Two suction holes and one serum discharge hole, incorporating a spiral design to ensure sufficient contact to skin.

Vacuum function

Amplifies the peeling and extrusion effects.

Curated solutions

Enhances efficacy when paired with specially curated solutions like LASER DOCTOR and other compatible options.

Technical specification

Ultrasound Handpiece	1.2 MHz
Aqua Handpiece	Face (regular size), nose (narrow size)
Diamond Handpiece	#140 / #170
Vacuum Pump	Up to 600 mmHg (±10 %)
Power Consumption	80 W
Aqua Waste Tank	1200 cc
Input Voltage	200 VAC / 50 / 60 Hz
Dimension (W*L*H)	350 mm (W) X 350 mm (L) X 1000 mm (H)
Weight	30 Kg
